

Kiwi Vision is a new manufacturer of an innovative patented design measuring device called Morgan Square. Morgan Square combines two steps of the framing process in building construction, dramatically saving time and improving efficiency during the construction process. This new tool allows construction companies and workers to save time, representing significant savings opportunities. This tool is available now online at kiwivision.net

Her mission is to influence change, encourage and empower curious individuals to live their lives to the best of their ability without judgment. She is known as a role model by many of her peers. She is constantly building relationships that open opportunities that are not obvious. She has a wealth of knowledge that can change one's perspective of the journey of entrepreneurship. She is all about continual learning to level up success!
