**Special “Live Networking” Sessions 7-8pm**

This is destined to become one of Silicon Valley’s signature events. Yet, as wonderful and dynamic as this event will be, it needs a promotional platform.

Introducing “*Virtual Chamber Services™*” (VCS) a mobile nex-gen promotional and communicational platform designed to assist small businesses in promoting their products, goods and services. Chambers will benefit by adding huge value to their membership while corporate sponsors benefit from third party validation and our non-intrusive mobile advertising platform.

Small Businesses and Chambers, Corporate Sponsors, Government Agencies and Communities benefit from this promotional and multi-directional communications platform equipped with “buy now”, “join now”, “get support and assistance now” or “survey now” instant action buttons.
